Code of conduct for using the school's computer equipment and the school´s computer rooms

Effective for all students at the Green Academy Aarhus

	The rule	Consequences
Generally:	IT equipment must only be used for the purpose of teaching. Private files or programs may not be placed on the school's computers or servers.	
Use of computer rooms:	The computer rooms can be used by everyone when they are not occupied by scheduled lessons.	Suspension from the computer room.
Smoking, food and drinks:	Meals are not allowed to be consumed in the computer room.	Violation may result in your suspension from the computer room.
Internet:	Chatting during the teaching lessons is not allowed, neither is downloading or installing programs from the internet. Apart from the situations where it is agreed upon with the teacher.	Violation may result in your suspension from the computer room.
Use of computers and printers:	Opening and saving pornographic pages from the internet is not allowed. Installing games or programs without prior agreement with the system administrator is not allowed.	Suspension from the computer room. The first violation will result in a written warning and repeated violations will result in your password being deleted and denying you access to the computers even outside the teaching lessons.
